

European Federation of Organisations for Medical Physics

EFOMP ESMP Bursary for Young Physicists - 2004

Sponsored by EFOMP

Applications are now invited for three ESMP Bursaries

Conditions

The EFOMP ESMP Bursary covers the registration fee for participation in the European School of Medical Physics, ESMP, for **one** week in the year 2004. Travel and subsistence costs are the responsibility of the applicant and cannot be funded by EFOMP. (Details of available courses can be obtained from the web site at http://lemoigne.home.cern.ch/lemoigne/esiweb/about_esmp.htm)

1. Applicants must be members of an EFOMP affiliated organisation, must be under 35 years of age on the date of application, and must have recently achieved or be about to achieve the level of a **qualified medical physicist**, as set out in section 3.2 of EFOMP Policy statement No 10. ('Recommended Guidelines on National Schemes for Continuing Professional Development of Medical Physicists' <http://www.efomp.org/policyst.html>)
2. The applicant must have been working as a medical physicist in either a hospital, university or research institute engaged in similar work for a period of at least two years and should have commenced on a CPD program, which will lead towards the level of **specialist medical physicist** (Section 3.2, Policy statement No 10)
3. **All sections of the application form must be completed** and submitted to the Honorary Secretary of the respective National Organisation for ratification. The completed and ratified application form must be sent to the EFOMP Registered Office at the address below. (A copy by e-mail to the Chairman of ETP Committee will be welcome). However, applicants are strongly advised to send a copy of their application form to the EFOMP Registered Office and a copy by e-mail to the Chairman of ETP Committee in case the original application is delayed:
